

Modlist

Client Side

ABPS - Acid's Bot Placement System 2.0.19 (BepInEx/User) - Created by acidphantasm

<https://sp-mod.com/mod/2097/abps-acids-bot-placement-system>

<https://github.com/acidphantasm/botplacementsystem-csharp>

- Configurable spawn mod, allows waves / starting PMCs / boss chances / progressive boss chances.

- ABPS will always try to keep your raids full and different each time.

LET ME OUT 1.0.2 (BepInEx) - Created by acidphantasm

<https://sp-mod.com/mod/2240/let-me-out>

<https://github.com/acidphantasm/acidphantasm-letmeout>

- Stops transit interaction from disabling all the other exfils. I want out, let me out!

More Tag Colours 1.4.0 (BepInEx) - Created by acidphantasm

<https://sp-mod.com/mod/1533/more-tag-colours>

<https://github.com/acidphantasm/acidphantasm-moretagcolours>

- Tired of not having enough tag colours to identify your 15 ammo cases? No more!
- This mod adds additional colours for you to use! 27 of them!

Preview Sizer 1.0.3 (BepInEx) - Created by acidphantasm

<https://sp-mod.com/mod/2339/preview-sizer>

<https://github.com/acidphantasm/acidphantasm-previewsize>

- Primarily required if you are using StatTrack or Realism, especially so if you use both.
- This will allow you to customize the preview icons and window sizes by removing fields.

Simple Workout QTE 2.1.1 (BepInEx) - Created by acidphantasm

<https://sp-mod.com/mod/1437/simple-workout-qte>

<https://github.com/acidphantasm/simpleworkoutqte-csharp>

- Workout QTE in hideout is now much easier, and configurable!

StatTrack 2.0.0 (BepInEx/User) - Created by acidphantasm

<https://sp-mod.com/mod/1853/stattrack>

<https://github.com/acidphantasm/stattrack-csharp>

- Ever wanted to know how many kills and headshots you have with a specific weapon? Now you

can.

- All weapons will individually track their kills and headshots and display on the info screen for the weapon.
 - See how many you can rack up before you die!
-

Amands's Graphics 1.7.0 (BepInEx) - Created by Amands2Mello

<https://sp-mod.com/mod/592/amandss-graphics>

<https://github.com/ArchangelWTF/AmandsGraphics>

- Lighting and postprocessing overhaul
-

Better Night Skies 1.0.0 (BepInEx) - Created by Fiodor

<https://sp-mod.com/mod/2734/better-night-skies>

<https://github.com/Fiodorwellfme/Better-Night-Skies>

- What's that giant star ? Could it be yo mama ?
-

Borkel's Realistic Night Vision Goggles (NVGs and T-7) 3.0.1 (BepInEx/User) - Created by Borkel

<https://sp-mod.com/mod/954/borkels-realistic-night-vision-goggles-nvgs-and-t-7>

<https://github.com/Borkel/RealisticNVG-client-2>

- Now with new realistic NVG masks and natural light outside the tubes.
 - I looked at real life NVGs and I tried to imitate them ingame. Customizable ingame (colors and everything).
-

CloudSix - Volumetric Clouds 3.0.5 (BepInEx) - Created by matsix

<https://sp-mod.com/mod/2567/cloudsix-volumetric-clouds>

<https://github.com/matsixx/CloudSix>

- Replaces Tarkov's clouds with volumetric clouds using a custom shader built from the ground up
-

Show Me The Money (Item Pricing) 2.7.0 (BepInEx/User) - Created by swiftxp

<https://sp-mod.com/mod/2299/show-me-the-money-item-pricing>

<https://github.com/swiftxp-hub/spt-show-me-the-money>

- Snag the ultimate deal! The tooltip now shows the boldest trader offer and a flea-market price engineered for a perfectly inevitable sale.
-

Quick-Sell 2.3.0 (BepInEx) - Created by swiftxp

<https://sp-mod.com/addon/1/quick-sell>

<https://github.com/swiftxp-hub/spt-show-me-the-money-quick-sell>

- Addon for: Show Me The Money (Item Pricing)
 - Turbo-charge your sales! A charming little SMTM add-on that shuffles inventory into buyers' hands at worrying speed.
-

Waypoints - Expanded Navmesh 1.8.2 (BepInEx) - Created by DrakiaXYZ

<https://sp-mod.com/mod/827/waypoints-expanded-navmesh>

<https://github.com/DrakiaXYZ/SPT-Waypoints>

- Expand where bots can explore with full map navmesh coverage!
-

Dynamic Maps 1.1.3 (BepInEx/User/EscapeFromTarkov_Data) - Created by mpstark

<https://sp-mod.com/mod/1431/dynamic-maps>

<https://github.com/acidphantasm/SPT-DynamicMaps>

- Replaces the in-game map screen with actually useful maps with dynamic information!

Project Fika 2.3.9 (BepInEx) - Created by Lacyway

<https://sp-mod.com/mod/2326/project-fika>

<https://github.com/project-fika/Fika-Plugin>

- Project Fika is a mod designed to enable co-op multiplayer game play with your friends in SPT.
- You can progress through quests, share items and quest progression, fight AI bots (PMCs, SCAVs, and bosses) together and much more.

HollywoodFX 2.0.0 (BepInEx) - Created by JankyTheClown

<https://sp-mod.com/mod/2003/hollywoodfx>

<https://github.com/SleepingPills/HollywoodFX>

- Make battles look cinematic and immersive by rebuilding almost every single impact and special effect from scratch.
- Realism is not the aim, but the mod doesn't go overboard.

Interactable Exfils API 2.1.0 (BepInEx) - Created by Jehree

<https://sp-mod.com/mod/1676/interactable-exfils-api>

<https://github.com/Jehree/SPT-InteractableExfilsAPI>

- Adds interaction prompts to exfils, letting you toggle the exfil timer on and off (you can finally loot that body without extracting!) as well as API tools for modders to add their own exfil interaction options.

Game Panel HUD 3.4.0 (BepInEx) - Created by kmyuhkyuk

<https://sp-mod.com/mod/456/game-panel-hud>

<https://github.com/kmyuhkyuk/GamePanelHUD>

- Tarkov All-in-one HUD Expansion

Kmy Tarkov Api 1.5.0 (BepInEx) - Created by kmyuhkyuk

<https://sp-mod.com/mod/898/kmy-tarkov-api>

<https://github.com/kmyuhkyuk/KmyTarkovApi>

- Api Framework for Client Mods

NARCONet - Mod Sync 1.0.16 (BepInEx/User) - Created by madmanbeavis

<https://sp-mod.com/mod/2441/narconet-mod-sync>

<https://gitlab.com/flir063-spt/narconet>

- One Connection. Every Mod. Every Setting. More Reliable than your dealer.

MergeConsumables 1.5.5 (BepInEx/User) - Created by Lacyway

<https://sp-mod.com/mod/1657/mergeconsumables>

<https://forge.sp-tarkov.com/mod/1657/mergeconsumables>

- Tired of not being able to merge your medical items or food? Now you can!

MergeConsumables - Fika sync 1.1.0 (BepInEx/User) - Created by Lacyway
<https://sp-mod.com/addon/4/mergeconsumables-fika-sync>
<https://forge.sp-tarkov.com/mod/1657/mergeconsumables>
- Tired of not being able to merge your medical items or food? Now you can!

MoreCheckmarks 2.2.0 (BepInEx/User) - Created by VIPkiller17
<https://sp-mod.com/mod/861/morecheckmarks>
<https://github.com/TommySoucy/MoreCheckmarks>
- A mod that adds checkmarks and more detailed tooltips to items to indicate if it is needed for hideout upgrades, quests, or if it is on your wishlist

Level Endurance and Strength 1.0.1 (BepInEx) - Created by Orientacocat
<https://sp-mod.com/mod/2438/level-endurance-and-strength>
<https://github.com/kittycat2002/LevelEnduranceAndStrength>
- Level Endurance and Strength while mildly overweight

Player Encumbrance Bar 1.2.2 (BepInEx) - Created by mpstark
<https://sp-mod.com/mod/1374/player-encumbrance-bar>
<https://github.com/Lacyway/SPT-PlayerEncumbranceBar>
- Adds a progress bar to the inventory that shows total player encumbrance

Questing Bots 0.11.0 (BepInEx/User) - Created by DanW
<https://sp-mod.com/mod/1109/questing-bots>
<https://github.com/dwesterwick/SPTQuestingBots>
- You're no longer the only PMC running around placing markers and collecting quest items.
- The bots have transcended and are coming for you...

SAIN - Solarint's AI Modifications - Full AI Combat System Replacement 4.4.3 (BepInEx/User) - Created by Solarint
<https://sp-mod.com/mod/791/sain-solarints-ai-modifications-full-ai-combat-system-replacement>
<https://github.com/ArchangelWTF/SAIN>
- Bots that don't suck.

anOrangeDoggo's SAIN Presets 0.2.0 (BepInEx) - Created by CuriousVoidling
<https://sp-mod.com/addon/21/anorangedoggos-sain-presets>
<https://github.com/powerCasualUser/SAIN-Presets>
- Addon for: SAIN - Solarint's AI Modifications - Full AI Combat System Replacement
- A collection of personal presets aimed for fun gunfights for varying levels of players

[SAIN] Twitch Players 3.0.8 (BepInEx/User) - Created by harmony
<https://sp-mod.com/mod/1895/sain-twitch-players>
<https://github.com/harmonyzt/TwitchPlayers>
- Addon for: SAIN - Solarint's AI Modifications - Full AI Combat System Replacement
- Good night. Good luck.

Time & Weather Changer NG 2.4.0 (BepInEx) - Created by flir
<https://sp-mod.com/mod/2120/time-weather-changer-ng>
<https://gitlab.com/flir063-spt/timeweatherchanger>
- Time & Weather changer

Visceral Combat 3.7.0 (SPT 4.0) (BepInEx) - Created by SSH
<https://servphcorpp.com/files/EFT-Mods/Visceral%20Combat/>

Vertical Hideout 1.0.0 (BepInEx) - Created by tarkin
<https://sp-mod.com/mod/2530/vertical-hideout>
<https://github.com/bmpq/spt-hideoutuirevamp>
- Replace the horizontal carousel with a sane vertical list

Climbable Ladders 1.0.2 (BepInEx) - Created by tarkin
<https://sp-mod.com/mod/2649/climbable-ladders>
<https://github.com/bmpq/spt-ladders>
- Ladders

Climbable Ladders - Fika sync 1.0.0 (BepInEx) - Created by tarkin
<https://sp-mod.com/addon/39/climbable-ladders-fika-sync>
<https://github.com/bmpq/spt-ladders>
- Addon for: Climbable Ladders
- Fika Ladders

UnityToolkit 2.0.1 (BepInEx) - Created by Arys
<https://sp-mod.com/mod/1426/unitytoolkit>
<https://github.com/ArysWasTaken/UnityToolkit>
- A collection of Unity libraries for client modders to make writing efficient, allocation-free code easier.

Vagabond 0.7.1 (BepInEx/User) - Created by Oogabooga
<https://sp-mod.com/mod/2642/vagabond>
<https://github.com/MrEliassen/SPT-Vagabond>
- Vagabond is an overhaul mod, which aims to turn Tarkov into an open world game.
- You start with limited money to buy a simple loadout from Fence and your challenge is now to survive, using only transits and access traders via their own extracts.

WTT - CommonLib 2.0.24 (BepInEx/User) - Created by GrooveypenguinX
<https://sp-mod.com/mod/2310/wtt-commonlib>
<https://github.com/WelcomeToTarkov/WTT-CommonLib>
- A modding utility library that eliminates boilerplate when adding custom items, quests, characters, and more to SPT

WTT - Content Backport 1.1.5 (BepInEx/User) - Created by GrooveypenguinX

<https://sp-mod.com/mod/2512/wtt-content-backport>

<https://github.com/WelcomeToThursday/Tarkov-1.0-Backport>

- The moment you've all been waiting for....

WTT - DoomArcade 1.0.0 (BepInEx/User) - Created by GrooveypenguinX

<https://sp-mod.com/mod/2865/wtt-doomarcade>

<https://github.com/WelcomeToTarkov/WTT-DoomArcade>

- Experience hell on earth... in your hideout?

WTT - Komrade Kid by Nyetendo 2.0.0 (BepInEx/User) Created by GrooveypenguinX

<https://sp-mod.com/mod/1776/wtt-komrade-kid-by-nyetendo>

<https://github.com/WelcomeToTarkov/WTT-KomradeKid>

- Tired of running endlessly from map to map? Take a break with the Komrade Kid, and let the danger find YOU!

- The WTT Team proudly delivers the ultimate distraction-a fully playable Game Boy... in Tarkov. Well dang, now THAT'S immersion.

Air Filter Warning 1.1.0 (BepInEx) - Created by ZGFueDkx

<https://sp-mod.com/mod/2129/air-filter-warning>

<https://github.com/danx91/AirFilterWarning>

- Tired of forgetting about air filter when you exit the game? Maybe this mod will help you save your precious FP-100 filters.

Inventory Organizing Features (Ported to 4.0.x) 1.5.1 (BepInEx) - Created by ChouUn

<https://sp-mod.com/mod/2399/inventory-organizing-features-ported-to-40x>

<https://github.com/ChouUn/SPT-InventoryOrganizingFeatures>

- Adds several inventory organizing features which rely on item tags, such as sort locking, move locking and container organizing.

- Also adds a button to take out all the items from a container.

DisableScavMode egboggied 1.1.0 (BepInEx) - Created by egbog

<https://sp-mod.com/mod/1301/disablescavmode-egboggied>

<https://github.com/egbog/DisableScavMode-egboggied>

- Disable Scav Mode selection

Don't Shoot The Bus 1.0.0 (BepInEx) - Created by Chazu

<https://sp-mod.com/mod/2617/dont-shoot-the-bus>

<https://github.com/Chazut/Dont-Shoot-The-Bus>

- PMC bots keep picking fights with a 13-ton armored vehicle. This mod fixes that.

BigBrain 1.4.0 (BepInEx) - Created by DrakiaXYZ

<https://sp-mod.com/mod/902/bigbrain>

<https://github.com/DrakiaXYZ/SPT-BigBrain>

- A library for adding extra logic layers to existing bot brains

Door Randomizer 1.7.0 - Created by DrakiaXYZ

<https://sp-mod.com/mod/820/door-randomizer>

<https://github.com/DrakiaXYZ/SPT-DoorRandomizer>

- Getting tired of doors always being in the same state at raid start? Randomize them instead!

Door Randomizer - Fika Sync 1.0.2 (BepInEx) - domizer - Fika Sync 1.0.2

<https://sp-mod.com/mod/820/door-randomizer>

<https://github.com/ozen-m/SPT-DoorRandomizer.Sync>

- Addon for: Door Randomizer
- Synchronize the doors changed by Door Randomizer

Gilded Key Storage 2.0.4 (BepInEx/User) - Created by Jehree

<https://sp-mod.com/mod/865/gilded-key-storage>

<https://github.com/DrakiaXYZ/SPT-GildedKeyStorage-CSharp>

- A balanced progression based approach to convenient all in one key storage!

Search Open Containers 1.4.0 (BepInEx) - Created by DrakiaXYZ

<https://sp-mod.com/mod/934/search-open-containers>

<https://github.com/DrakiaXYZ/SPT-SearchOpenContainers>

- Allow searching open containers without needing to close them first

Task List Fixes 1.7.1 (BepInEx) - Created by DrakiaXYZ

<https://sp-mod.com/mod/824/task-list-fixes>

<https://github.com/DrakiaXYZ/SPT-TaskListFixes>

- Do you want to fix sorting, improve sorting, and improve performance? Grab Task List Fixes and you'll get it all in one simple DLL

Fontaine's FOV Fix 4.0.1 (BepInEx) - Created by Fontaine

<https://sp-mod.com/mod/701/fontaines-fov-fix>

<https://github.com/space-commits/SPT-FOV-Fix>

- Removes the FOV change on aiming by default, and lets you customize the FOV change amount.
- Has options for modifying FOV scale, view model FOV, ADS camera movement smoothing, and optional toggle zoom (like ARMA or DAYZ).

Hall of Fame Improvements (3.11.x port) 2.0.1 (BepInEx) - Created by LightoftheWorld

<https://sp-mod.com/mod/2165/hall-of-fame-improvements-311x-port>

<https://github.com/Light-of-the-World/Hall-of-Fame-Improvements-originally-by-Utjan->

- Improves the Hall of Fame hideout area by making your displayed trophies add to the skill leveling bonus based on their value and variety!

HandsAreNotBusy 1.6.0 (BepInEx) - Created by Lacyway

<https://sp-mod.com/mod/1298/handsarenotbusy>

<https://github.com/Lacyway/HandsAreNotBusy>

- Annoyed by the ancient "Hands are busy" bug? HandsAreNotBusy (HANB) is a mod that can fix certain scenarios of the "Hands are busy" bug for you!

Stance Sync 1.0.2 (BepInEx) - Created by Devraccoon

<https://github.com/minihazel/StanceSync>

- A simple mod that enables syncing leaning and shoulder swapping.

Munitions Expert (Reboot) 1.7.0 (BepInEx) - Created by IcyClawz

<https://sp-mod.com/mod/972/munitions-expert-reboot>

<https://github.com/IgorEisberg/SPT-ClientMods>

- View hidden attributes of ammo, with custom background colors based on penetration power values.

Agony SFX 1.1.5 (BepInEx) - Created by inory

<https://sp-mod.com/mod/1831/agonysfx>

<https://github.com/ppowa/agonysfx>

- Client mod that allows bots to play additional voice lines upon dying.

NerfBotGrenades 1.2.0 (BepInEx) - Created by Lacyway

<https://sp-mod.com/mod/1925/nerfbotgrenades>

<https://github.com/Lacyway/NerfBotGrenades>

- Allows you to multiply bot inaccuracy with grenades.
- API for making the implementation of custom bots easier

Headshot Damage Redirection 4.0.7 (BepInEx) - Created by PerfK_

<https://github.com/perfk/Solarint-HeadshotDamageRedirect>

- Survive headshots by redirecting damage to other body parts.
- Fully configurable split ratios, thresholds, and RNG options.
- Stop getting one-tapped and fight back! Compatible with SPT 4.0.7 & FIKA

Plant Time Modifier (BepInEx) - Updated by CrocodileJonesy 1.4.0 - Created by CrocodileJonesy

<https://sp-mod.com/mod/1965/plant-time-modifier-updated-by-crocodilejonesy>

<https://github.com/CrocodileJonesy/PlantTimeModifier>

- An update for the original plant time modifier mod that allows you to set the time it takes to plant items for certain quests, you can adjust it to be either quicker or slower.

Color Converter API 1.1.0 (BepInEx) - Created by RaiRaiTheRaichu

<https://sp-mod.com/mod/1090/color-converter-api>

<https://github.com/RaiRaiTheRaichu/ColorConverterAPI>

Client-side mod to allow using hexcode colors for your items! Custom background colors for your items, or any color tracer you want!

Brighter Interiors 1.0.1 (BepInEx) - Created by 7bpencil

<https://sp-mod.com/mod/2613/brighter-interiors>

<https://github.com/7Bpencil/SPT.BrighterInteriors>

- Make interiors reasonably bright

UnderFire - An Adrenaline Effect 2.0.1 (BepInEx) - Created by rpmwpm

<https://sp-mod.com/mod/2063/underfire-an-adrenaline-effect>

<https://github.com/rpmwpm/UnderFire>

- A simple mod that triggers an adrenaline effect when you are being shot at or when you get hit.

Shadow Flicker Fix 1.5.2 (BepInEx) - Created by pein

<https://sp-mod.com/mod/1621/shadow-flicker-fix>

<https://github.com/peinwastaken/shadowflickerfix>

- Fixes distant shadow flickering which was most noticeable with anti-aliasing disabled.

Sniper Bros 1.0.3 (BepInEx) - Created by Shibdib

<https://sp-mod.com/mod/2663/sniper-bros>

<https://github.com/shibdib/SPT-SniperBros>

- Sniper Scavs are bros to all bots.

Skill Distribution 1.2.2 (BepInEx/User) - Created by ZGFueDkx

<https://sp-mod.com/mod/2144/skill-distribution>

<https://github.com/danx91/SkillDistribution>

- Want to level your skills faster but also want to keep vanilla feel of progression? Give this mod a try, you might like it.

Looting Bots 1.7.0 (BepInEx/User) - Created by Skwizzy

<https://sp-mod.com/mod/812/looting-bots>

<https://github.com/Skwizzy/SPT-LootingBots>

- This mod aims to add more life to the bots by enhancing some EFT looting behaviors letting bots loot items, containers, and corpses during patrols.
- More features to come!

Exfil Flare Notification 1.0.5 (BepInEx) - Created by Terkoiz

<https://sp-mod.com/mod/1249/exfil-flare-notification>

<https://github.com/acidphantasm/SPT-FlareEventNotifier>

- A small QoL mod for folks that are paranoid if their exfil flare was used correctly

DeHazardifier - Updated by Tetris 1.1.0 (BepInEx) - Created by TetrisGG

<https://sp-mod.com/mod/2125/dehazardifier-updated-by-tetris>

<https://github.com/tetrisdev/Tyr-DeHazardifier>

- Dislike being sniped because you walked into an open area sniper zone on streets?
- Hate randomly blowing up because invisible 'minefields'?
- Think the claymores on streets are a pain in the ass and hard to see?
- Do you hate being stung by barbed wire?

AutoDeposit 5.0.0 (BepInEx) - Created by Tyfon

<https://sp-mod.com/mod/1469/autodeposit>

<https://github.com/tyfon7/AutoDeposit/releases/tag/v5.0.0>

- Transfer items into stash containers with matching items, inspired by Terraria's Quick Stack.

UI Fixes 5.3.11 (BepInEx/User) - Created by Tyfon

<https://sp-mod.com/mod/1342/ui-fixes>

<https://github.com/tyfon7/UIFixes>

- Quality of life improvements and fixes for SPT

Un-flashbang Hideout 1.0.4 (BepInEx) - Created by ArchangelWTF

<https://sp-mod.com/mod/1425/un-flashbang-hideout>

<https://github.com/ArchangelWTF/Un-flashbangHideout>

- Running Super Sampling and have just completed a few raids late at night?
- Went into your hideout to upgrade something or craft and just got flashbanged? No more!

Use Items Anywhere 1.3.2 (BepInEx) - Created by Cj

<https://sp-mod.com/mod/2386/use-items-anywhere>

<https://github.com/CJ-SPT/UseItemsAnywhere>

- Use and bind items from anywhere in your inventory

Visceral Combat 3.7.0 (BepInEx) - Created by SSH

<https://servphcorpp.com/files/EFT-Mods/Visceral%20Combat/>

- Blood and Dismemberment

Server Side

Server Value Modifier [SVM] 2.1.3 (User) - Created by GhostFenixx

<https://sp-mod.com/mod/236/server-value-modifier-svm>

<https://github.com/GhostFenixx/svm-csharp>

- Swiss knife of SPT. Standalone extensive All-In-One Server mod that comes with User Interface and a huge variety of options

Add Secret Exfil Notes to Caches 2.0.0 (User) - Created by acidphantasm

<https://sp-mod.com/mod/2049/add-secret-exfil-notes-to-caches>

<https://github.com/acidphantasm/addsecretexfilnotestocaches-csharp>

- Simple mod that adds the Secret Exfil Code Notes to Barrel/Wood caches as well as dead PMC/SCAV bodies on maps that have Secret Exfils.
- At the configurable rate that you choose.

Bosses Have Gp Coins 1.0.0 (User) - Created by acidphantasm

<https://sp-mod.com/mod/2523/bosses-have-gp-coins>

<https://github.com/acidphantasm/bosseshavevegpcoins-csharp/>

- From the maker of Bosses Have Lega Medals! Now... the exact same mod, but with Gp Coins. Such wow. Amazing.

Bosses Have Lega Medals 2.0.1 (User) - Created by acidphantasm

<https://sp-mod.com/mod/1539/bosses-have-lega-medals>

<https://github.com/acidphantasm/bosseshavelegamedals-csharp>

- Bosses have a configurable chance to have Lega Medals in their pockets.

ABPS - Acid's Bot Placement System 2.0.19 (User) - Created by acidphantasm

<https://sp-mod.com/mod/2097/abps-acids-bot-placement-system>

<https://github.com/acidphantasm/botplacementsystem-csharp>

- Configurable spawn mod, allows waves / starting PMCs / boss chances / progressive boss chances.
- ABPS will always try to keep your raids full and different each time.

BrightLasers 2.0.0 (User) - Created by acidphantasm

<https://sp-mod.com/mod/1358/brightlasers>

<https://github.com/acidphantasm/brightlasers-csharp>

- I only created this because both prior mods that updated laser level are outdated, and I wanted to learn how to do bundles.

APBS - Acid's Progressive Bot System 2.2.1 (User) - Created by acidphantasm

<https://sp-mod.com/mod/1594/apbs-acids-progressive-bot-system>

<https://github.com/acidphantasm/progressivebotsystem-csharp>

- Fully customizable progression system.
- By default, all AI will level with you, have appropriate gear for their level, and might be a tad more dangerous due to their progression.
- Everyone has something worth stealing or scavenging!

APBS Realistic and Extended PMC Loadouts Preset 0.9.4 (User) - Created by mip01

<https://sp-mod.com/addon/37/apbs-realistic-and-extended-pmc-loadouts-preset>

<https://github.com/Jsjsj01/APBS-Presets>

- Addon for: APBS - Acid's Progressive Bot System
- A preset mod that makes pmc's loadouts more live-like and reasonable.

Ref - SPT Friendly Quests 2.0.3 (User) - Created by acidphantasm

<https://sp-mod.com/mod/1538/ref-spt-friendly-quests>

<https://github.com/acidphantasm/reffriendlyquests-csharp>

- Converted all the Arena specific quests for Ref into SPT quests.
- Rewards the same things as Live, with an added Lega Medal to each quest.
- Includes the sword unlock and secure container.

Simple Workout QTE 2.1.1 (User) - Created by acidphantasm

<https://sp-mod.com/mod/1437/simple-workout-qte>

<https://github.com/acidphantasm/simpleworkoutqte-csharp>

- Workout QTE in hideout is now much easier, and configurable!

Better Keys NG 1.7.1 (User) - Created by flir

<https://sp-mod.com/mod/1888/better-keys-ng>

<https://gitlab.com/flir063-spt/betterkeys-ng>

- Get some useful info about each key. Is it required for a quest? What is behind the lock? Is it used to exit/transit ?

Bot Callsigns - Reloaded 2.0.4 (User) - Created by harmony

<https://sp-mod.com/mod/1873/bot-callsigns-reloaded>

<https://github.com/harmonyzt/BotCallsigns>

- Getting tired of the same bot names you meet? Well.. This mod adds 32,651 of them. Including original names from SPT!

Lockdown 1.0.0 (User) - Created by DrakiaXYZ

<https://sp-mod.com/mod/2452/lockdown>

<https://github.com/DrakiaXYZ/SPT-lockdown>

- This mod is primarily for users of Fika, who want to restrict access to mod-based web configuration panels such as APBS and ABPS.

- It will add a very simple login form for any configured route, and require a valid username/password to access any protected routes.

NoCheese 2.0.0 (User)- Created by DrakiaXYZ

<https://sp-mod.com/mod/2032/nocheese>

<https://github.com/DrakiaXYZ/SPT-NoCheese-CSharp>

- I'm lactose intolerant, get that cheese away from me!

Easy Ammo Names 2.0.0 (User) - Created by McDewgle

<https://sp-mod.com/mod/1262/easy-ammo-names>

<https://github.com/DrakiaXYZ/SPT-EasyAmmoNames-CSharp>

- A simple mod that renames ammunition in SPT so that it's easier to identify.

Project Fika - Server 2.3.5 (User) - Created by Lacyway

<https://sp-mod.com/mod/2357/project-fika-server>

<https://github.com/project-fika/Fika-Server-CSharp>

- Server-side changes to make multiplayer work.

Realistic Thermal Scopes (User) - Less Pixelated 2.0.0 (User) - Created by FiveF

<https://sp-mod.com/mod/2056/realistic-thermal-scopes>

<https://github.com/FiveFme/Realistic-Thermal-Scopes-csharp>

- Realistic Thermal Scopes - Less Pixelated

give-ui 4.0.0 (User) - Created by agavalda

<https://sp-mod.com/mod/1617/give-ui>

<https://github.com/angel-git/give-ui>

- Simple UI for the give, trader and profile commands

Increase Climb Height 2.0.1 (User) - Created by redlaser42

<https://sp-mod.com/mod/1575/increase-climb-height>

<https://github.com/redlaser42/IncreaseClimbHeight>

- Increases the height at which you can perform a climb.

Welcome Messages 1.0.0 (User) - Created by KittehKun

<https://sp-mod.com/mod/2361/welcome-messages>

<https://github.com/KittehKun/spt-welcome-messages>

- Tired of the boring beta warning? Welcome Messages replaces Tarkov's startup message with 50+ Tarkov-themed greetings!
- From "Head, eyes. Always." to "Nikita is watching you...", get a random Tarkov themed message every server start!

Lacy's PvE Tweaks 1.1.0 (User) - Created by Lacyway

<https://sp-mod.com/mod/2395/lacys-pve-tweaks>

<https://github.com/Lacyway/LacywayPvETweaks>

- Several options to make PvE less annoying. Want to go to Labyrinth without using the transit?
- Now you can queue right into it! Want to make quests less grindy, or less restrictive? Now you can!

Secure Mapbook 1.5.6 (User) - Created by MrVibesRSA

<https://sp-mod.com/mod/2060/secure-mapbook>

<https://github.com/MrVibesRSA/Secure-Mapbook>

- This mod introduces a secure, organized mapbook that stores all in-game maps.

Not So Secure Container 3.0.0 (User) - Created by sgtlaggy

<https://sp-mod.com/mod/1531/not-so-secure-container>

<https://github.com/sgtlaggy/spt-not-so-secure-container>

- Configurable chances of losing items in secure container on death.

ODT's Item Info - SPT 4.0 2.0.15 (User) - Created by kobethuy

<https://sp-mod.com/mod/2430/odts-item-info-spt-40>

<https://github.com/thuynguyentrungdang/ODT-ItemInfo-4.0>

- Massive QOL Item Info mod for SPTarkov

PityLoot (User) - Val Port to SPT 4.0

REFERENCE ONLY : <https://sp-mod.com/mod/1258/pity-loot>

- Increases the chances to find loot you need for Quests/Hideouts/Keys based on how long it has been since you first started looking.
- Has configurable odds and can work based on real world time or # of raids since beginning.

Questing Bots 0.11.0 (User) - Created by DanW

<https://sp-mod.com/mod/1109/questing-bots>

<https://github.com/dwesterwick/SPTQuestingBots>

- You're no longer the only PMC running around placing markers and collecting quest items. The bots have transcended and are coming for you...

Season Rotator 2.0.0 (User) - Created by turbodestroyer

<https://sp-mod.com/mod/2314/season-rotator>

https://github.com/turbodestroyer1337/spt_season_rotator

Auto-rotate seasons at the pace you decide

Softcore (User) - Val Port to SPT 4.0

REFERENCE ONLY : <https://github.com/odt1/ODT-Softcore>

- Experimental single player Tarkov "survival RPG vibes" rebalance focused on economy and crafting with a sprinkle of random extra features.

Underbarrels Buffed 1.0.1 (User) - Created by Haze_of_dream

<https://sp-mod.com/mod/2654/underbarrels-buffed>

<https://github.com/Hazeofdream/UnderbarrelsBuffed>

- A mod to remove those insane ergonomic penalties on underbarrel grenade launcher attachments.

Revision #3
